Minnesota Adult & Teen Challenge is the new owner of Wellcome Manor Family Services

GARDEN CITY, Minn. (Feb. 27, 2024) – Minnesota Adult & Teen Challenge (MnTC) today announced its purchase of Wellcome Manor Family Services in Garden City, Minnesota. The women-with-children’s addiction treatment facility and its 75 employees will join MnTC’s system of 15 addiction and mental health treatment centers across the state. A photo of Wellcome Manor can be found [here](#).

The sale comes after a planned transition from Wellcome Manor’s former owners, who selected MnTC for its similar mission, values and culture. Under new ownership, Wellcome Manor will retain its name and continue to operate as before, with additional resources provided by MnTC to make services available to a broader audience in the region.

“We are excited to bring Wellcome Manor and its incredible team of professionals into the MnTC family,” said MnTC CEO Tom Truszinski. “Wellcome Manor’s staff care deeply about their mission, leadership and reputation. The location and culture are a natural fit, and we look forward to combining our strengths to grow and continue providing exceptional service to clients.”

With this purchase, MnTC will expand its services to the Mankato area and continue its growth in providing services to rural Minnesota communities. Wellcome Manor is MnTC’s fifth facility serving women and first to serve women with children. It is also one of three facilities in the state that serves mothers with drug and alcohol addiction.

“We’re seeing a growing need for care options for women with children across the state, and we’re honored to enter this space through Wellcome Manor,” Truszinski said.

About Minnesota Adult and Teen Challenge

Minnesota Adult & Teen Challenge (MnTC) is a drug and alcohol treatment and recovery program that has been in operation since 1983. With 18 locations throughout the state, MnTC offers a full range of services including a long-term recovery program, a short-term intensive treatment program and

community-based outpatient groups, as well as extensive aftercare and alumni services for long-term sobriety.
